

Identity Theft Protection

Your personal information under lock and key.

Let the professionals help you keep your private information private.

Victims of identity theft spend countless hours trying to sort out the damage. Identity theft protection could help you catch fraud in its early stages through 24/7 monitoring of your personal and financial information. It can also help you act quickly to limit damage if your personal or financial information is stolen. For a complete list of identity theft protection services available, go to <https://www.myaip.com/exchange> or call **855.969.3373**.

Identity theft protection is a voluntary benefit administered by Allstate. The plan covers all eligible family members. And you can drop coverage at any time during the year.

Things to Consider

✓ Cost

You'll be able to see the cost per paycheck when you enroll.

✓ Your risk factors

While everyone has risk, some people are at greater risk than others. For example, have you used credit cards on unsecure websites? Or do you make online purchases regularly? If you answered "yes" to either question, having identity theft protection could give you peace of mind.
