

Legal Services

Legal advice doesn't have to break the bank.

You have an affordable way to get help with your personal legal needs.

You don't want to spend a fortune to get legal advice when you need it. Legal Services offers a network of attorneys who can help with creating or updating a will, real estate matters, tax audits, document preparation, and more.

If you use a network attorney, you don't pay any fees, deductibles, or copays. For a complete list of network attorneys and covered services, go to <https://info.legalplans.com> (access code: 9901714) or call MetLife Legal Plans at **800.821.6400**.

Legal Services is a voluntary benefit administered by MetLife Legal Plans. The plan covers employees and eligible family members.

Things to Consider

✓ **Cost per paycheck**

If you expect to need legal services, the cost of legal services coverage could be less than if you paid an in-network attorney directly. You'll be able to see the cost per paycheck when you enroll.

✓ **Network**

MetLife Legal Plan's national attorney network has more than 13,000 attorneys across all 50 states and U.S. territories.

✓ **Your personal situation**

Think about your expected legal needs. For example, do you plan to purchase, sell, or refinance a home? Or do you need help preparing a will or trust? If you answered "yes" to either question, having legal services coverage could give you peace of mind.
